The sidewalk bridge over the gully at the corner of the P-wkins lot on east High street is in a dangerously dilapidated state. The city marshal should see to it that the bridge is put in safe condition.

Justice Henson had a civil suit before him here last Friday, H. F. Compton vs. Anthony R. Lynch, ejectment. The parties settled the matter on a compromise basis, however, without letting it go to trial.

Harrison Bass, young son of Mr. Perry Bass, was severely burned about the face Monday evening by the explosion of some powder in a can with which he was experimenting.

Judge Jas. D. Fox, of Fredericktown, was in Potosi the first of this week. We suppose the Judge's visit had some connection with his candidacy for the Democratic nomination for Supreme Judge.

A subscription fund is being raised here for the purpose of building a new fence around the old Presbyterian cemetery. This improvement has been needed for some time, as the old fence has not been hog proof for several years.

The infant daughter of Mr. and Mrs. Geo. W. Cole died at Old Mines on last Wednesday night. The funeral took place at Old Mines Friday afternoon. The child was only six weeks old. We extend the bereaved parents our sympathy.

The Foreign Missionary Society of the Presbyterian church will meet Thursday afternoon, at 3 o'clock, at the home of Mrs. Jas. A. Shields. A cordial invitation is extended to all ladies of the Methodist and Presbyterian churches to attend and take part in the work.

Mr. Thomas Jenkins, of Shirley, had the misfortune to have both bones of his right leg broken Saturday evening by the mule on which he was riding, slipping in the mud and falling on him. He was attended by Dr. P. E. Hoffmann, of Potosi, and at last reports he was doing well.

Last Friday's rain caused a 20-foot rise in Big River. The suspension foot bridge leading to the Irondale Lead Company's shaft succumbed to the turbulent waves, and considerable damage was done to the scaffolding at the railroad bridge which is being repaired.—Irondale Lead Miner.

Mr. and Mrs. J. W. Towl were summoned to Imboden, Ark., the first of last week, on account of the serious illness of Mrs. Towl's father, Mr. Sloan, who had suffered a paralytic stroke. Mr. Towl returned home Friday night and stated that he left his father-in-law in a very precarious condition.

We are pleased to inform our readers that the "supplies" furnished by Perry Bass to the court house as shown in the list of warrants published in the Journal last week were not of the goods he usually deals in, but consist of a second-hand stove which he sold to the county for use in one of the offices. The county clerk's having entered this item as "supplies" would naturally lead one to a false conclusion.

According to an item reprinted from the Denver (Colo.) News, of March 27, in the Farmington Times, Capt. J. McI. Carter, well-known in Potosi through family connections here, narrowly escaped being killed at Fort Logan recently by being kicked and trampled upon by a vicious horse. He was rendered unconscious for several hours. His scalp was torn back for some inches and he received a number of other severe cuts.

The lands of the Potosi Land and Development Co., also known as the Townsend lands, comprising about 3000 acres, and lying about three and a half miles west of Potosi, were sold last week to Mr. I. F. Mezargel, of Pennsylvania, who represents a number of eastern capitalists who will develop the lands for both lead and baryta. The new owners will take possession of the property about May 1st and begin active development at once.

Mr. George J. Cole showed us the other day a rich specimen of quartz from his Oregon gold mines, which he says assays about \$16,000 to the ton. The machinery for working the mines is rapidly approaching completion, and the work of getting out the gold will commence in earnest in a couple of months. Mr. Cole believes he has one of the finest and best paying mines in the West, and his many friends here certainly wish that his expectations may be realized.—Farmington Times.

State Senator Farris, of Steelville, was again in Potosi Monday, presumably on a mission in connection with his candidacy for renomination. It appears that the antagonism of the Independent to Mr. Farris' political ambitions bids fair to create a disturbance which will protrude itself into the fight for the Democratic nomination for Congress in the 13th district. Three of the counties in the 24th senatorial district are also included in the 13th congressional district. Mr. Farris in retaliation will, it is reported, throw his influence in these three counties against Congressman Robb, and in the interest of Judge Dearing.

The Iron Mountain Railroad Company responded quickly to the petition from citizens of Potosi for better transportation facilities on the Branch road. A letter from the general superintendent of the road states that the Branch train would at once be required to make another trip daily, giving us five trains a day each way. The train leaving here at 10:30 a. m., will return at 11:25 a. m.; leave against 11:30 a. m. and return at 1:15 p. m. All the other trains will run as heretofore. This arrangement will be a great benefit to Belgrade, Palmer, Berryman and other points reached by star route mails, as it enables the carriers to take out the mail the same day which now lies over here until the next day.

Dr. George, of the Sunday-school Association of Missouri, will address the people and especially the Sabbath-school workers of Washington County in the interest of this work. Miss Carrie Hill, one of our popular young ladies has returned home from St. Louis for the summer.

S. P. Patterson states that he wintered twenty-three head of stock, consisting of horses, cattle and hogs, and 85 chickens, the past winter at a cost of \$290.51, and brought them all through in good condition.

The Bates Creek school district meeting on April 2d failed to elect a road overseer on account of the east half of the district having been included in the special road district of the city of Potosi, leaving only the citizens of the west half who were qualified to vote for road overseer. As this was not generally understood it caused confusion. The county court will have to show us where the dividing line is.
